PRESS RELEASE
Date: 29 November 2017

ROSE Workshop hosted in Murska Sobota

Pomurska Chamber of Commerce hosted a workshop entitled »Preparing for the EU standard of eInvoice« today in the framework of the “Readiness Of Slovenian E-Invoicing” (ROSE) Action in order to discuss the requirements of the European Directive on eInvoicing for Public Procurement (2014/55/EU) with 26 discussants.

The Directive and the new European standard for eInvoices bring some changes to the operations of budget users and an entirely new obligation for public companies and private law entities operating on the basis of special or exclusive rights in infrastructure-related activities. Therefore, the representatives of management, heads of financial services and officials responsible for procurement processes, are among the most interested workshop participants.

The partners of the ROSE Action, Public Payments Administration of the Republic of Slovenia, Chamber of Commerce and Industry of Slovenia, ZZI d.o.o., Mojdenar IT d.o.o. and Centre for European Perspective, which are working on the preparation of the project and technical solutions for Slovenia in order to prepare it for the upcoming changes in the field of eInvoicing, briefed the participants on the new directive, the process and goals of ROSE Action, new EU standard and eSlog 2.0. standard, technical solutions for eInvoices reception and the single eInvoices recipients register.

All interested parties and those who would like to participate in the future workshops, are kindly invited to sign up for a newsletter at rose@slovenskieracun.si.
